Your next Bangladesh term

One retail partner on contracted Bangladesh placements for 12 months from the agreed activation date. Our current Bangladesh partner is KRY International; existing KRY International branding and links there must be removed and checked before Apple Gadgets's activation. DeviceGPT ownership stays with Teamz Lab.

Scope before commitment

Theme work, artwork, QR materials, onboarding and branding maintenance are proposed scope. 12-month agreement: ৳20,000 × 12 (৳2,40,000 total), or ৳2,00,000 upfront. Final placements, support limits, dates, taxes, renewal and early termination terms are agreed in writing. Major new features and paid advertising are separate. No slot is reserved.

TEAMZ LAB

UK-registered software studio. Mobile and web products, from prototype to app stores.

Readings and guided checks have automated and device-test coverage. Some checks rely on user observation; missing data stays unknown. This is not hardware certification, a guaranteed time saving or a resale valuation. Proposed one-showroom pilot: measure staff time, completed checks and feedback against a recorded baseline.
